## Stakeholder engagement

AMG operates through a highly decentralized management organization where its group companies carry full responsibility for the operational results and interaction with their immediate stakeholders. AMG's Management Board oversees and guides stakeholder engagement by its group companies and engages with stakeholders directly as and when appropriate.

Our dialogue is guided by materiality. We engage in early dialogue with key stakeholders to understand their perspectives. We acknowledge our responsibility to address stakeholder concerns, feedback, and expectations, and we take our stakeholders' concerns and expectations seriously when making decisions about how we develop and operate our business.

AMG interacts through day-to-day interaction and regular feedback sessions with customers on its products and services; employee works council meetings and other dialogue with colleagues; meetings with (potential) shareholders, bondholders and industry analysts; regular contact with regulatory bodies, government agencies and other organizations (including non-governmental organizations (NGOs), trade unions and industry associations); surveys; roundtables with policymakers, academics and peers. The dialogue on sustainability aspects of the strategy also takes place as part of regular meetings between the Management Board, and Supervisory Board.

AMG stimulates stakeholder dialogue in all its business activities and via the various channels and activities for stakeholder engagement. The form that is chosen for any specific dialogue depends on the topic and on the stakeholders involved. AMG may decide not to accommodate or accept any requests or invitations to enter into a dialogue

with stakeholders, or to accommodate or accept such request or invitation under certain conditions. AMG shall adhere to all legal obligations relating to confidentiality and shall only disclose publicly known information in meetings. In the event that inside information is inadvertently disclosed during any (bilateral) contact, AMG will publicly announce such information as soon as possible.

AMG conducts regular assessments to understand the needs, interests and expectations of our stakeholders, using this information to inform engagement strategies and review results in relation to AMG's strategy.

We provide our stakeholders with relevant information about our activities, decisions and performance, in accordance with applicable law, to foster transparency and trust.

## **Monitoring and Grievances**

Stakeholder engagement is characterized by its diversity in terms of key stakeholders, engagement objectives, methods, scope and frequency. To ensure effectiveness, AMG tracks and reports relevant data transparently in line with the sustainability disclosures of the EU Corporate Sustainability Reporting Directive ("**CSRD**").
